

The ETIP PV Steering Committee met in Hamelin, Germany, in September 2018

The ETIP PV Steering Committee met at the invitation of the Institute for Solar Energy Research (ISFH) in Hamelin, Germany, on 10 September 2018. ETIP PV discussed the further success of PV to become the clean terawatt energy source all over the world and will announce the Vision Paper for Photovoltaics "Big and Beyond: Photovoltaics proves to deliver the Paris Agreement providing an immediate climate change."

Furthermore, the continuation and focus of the working groups was decided. See below for an overview of the current ETIP PV working groups and their leaders:

- Working Group PV Industry Forum, Gaëtan Masson (Belgium)
- Working Group Integrated PV, Rutger Schlatmann (Germany)
- Working Group PV LCoE and Competitiveness, Eero Vartiainen (Finland)
- Working Group Digital Solar PV and Grid, Pierre-Jean Alet (France)
- Working Group PV QA and Reliability, Harry Wirth (Germany)

Marko Topič (ETIP PV Chairman), Wim Sinke (Vice-Chairman), Eero Vartiainen, Gaëtan Masson (Vice-Chairman), Pierre-Jean Alet, Rutger Schlatmann and Harry Wirth

Welcome to a New Solar Growth Phase in Europe, Welcome to EU PVSEC

As the platform for the European solar technology community from its early days, EU PVSEC is very glad to see that solar in Europe is starting to see a new growth phase. With our upcoming 35th event taking place from 24 to 28 September 2018 in Brussels - the heart of the European Union - several presentations in the EU PVSEC programme's Topic 7 on 'PV Economics, Markets and Policies' will look at the drivers of solar demand. This is accompanied by [several parallel events](#) that deal with market demand related themes as well.

PVSEC

**SOLAR
INDUSTRY
FORUM**

**SOLAR
MOBILITY
FORUM**

1st Solar Mobility Forum and 2nd Solar Industry Forum during 35th EU PVSEC

The 1st Solar Mobility Forum and the 2nd Solar Industry Forum will take place on 25 - 26 September 2018 embedded within the EU PVSEC in Brussels, Belgium.

These two events over 1.5 days will provide you with the incredible opportunity of learning from the world's leading researchers, equipment suppliers, solar manufacturers, and car manufacturers to compare notes on this astounding industry opportunity in PV and E-mobility.

Topics of planned sessions include: Future of the Solar PV industry, Cost evolution for PV products, manufacturing locally or globally, industry newcomers, What to manufacture, Economy of the Industry, Financing, How will e-mobility enable a faster PV development, EV charging with PV: the perfect combination, Manufacturing VIPV products: urgent need for standardization while ensuring customization possibilities.

ETIP PV, the Becquerel Institute and EU PVSEC are the co-organizers of the events, in cooperation with SOLARUNITED.
