

35th EU PVSEC 2018 - Where the Latest in Science & Technology Meets Industry

The EU PVSEC is the largest international Conference for Photovoltaic research, technologies and applications, and at the same time a top international PV Industry Exhibition. It gathers the global PV community to conduct business, to network and to present and discuss the latest developments and innovations in Photovoltaics. It is the world renowned science-to-science, business-to-business and science-to-industry platform with a full and only focus on the global PV solar sector.

Solar Mobility Forum and Solar Industry Forum during 35th EU PVSEC

The 1st Solar Mobility Forum and the 2nd Solar Industry Forum will take place on 25 - 26 September 2018 during the 35th EU PVSEC in Brussels, Belgium at the SQUARE - Brussels Meeting Center. 'Research Meets Business' is the guiding principle for these two events which will gather the most acknowledged experts of the PV sector and influential executives of the PV manufacturing

sector.

ETIP PV, the Becquerel Institute and EU PVSEC are the co-organizers of the event, in cooperation with SOLARUNITED.

Horizon 2020 projects: Backing the European PV industry

ETIP PV is proud to announce its participation at another side-event of the 35th EU PVSEC on 27 September 2018. The purpose of this event will be to introduce the current Horizon 2020 projects working on photovoltaics, EU-funded actions from material research to market development, with a strong focus on how industrial project partners benefit from Horizon 2020 in the development of their activities.

The two sessions of the event will cover Material and Component Research as well as Industrial and Market Uptake. Marco Topič, Chairman of the European Photovoltaic Technology and Innovation Platform (ETIP PV), will present the "Vision of the ETIP PV" at the start of the programme.
