

## QUALITY AND SUSTAINABILITY OF PV SYSTEMS CONFERENCE

3 May 2018 • BIP, Rue Royale 2-4, Brussels

### Poster Presenters Announced for Quality and Sustainability of PV Systems Conference

#### #PVQualityMatters

The European Technology and Innovation Platform for Photovoltaics is delighted to announce the Poster Presenter Display for the upcoming Quality and Sustainability of PV Systems Conference in Brussels on 3 May 2018.

The poster display will showcase the contribution of excellent national and international EU funded projects towards quality and sustainability along the whole PV value chain and will provide a strong visual impact to the Conference programme.

#### Poster presenters:

##### **Efficient Monitoring of Photovoltaic Parks and Systematic Analysis of Failure Risks**

Presenter: Pascal Kölblin, University of Stuttgart

##### **DaySy Contactless Measurements of PID Shunt Resistance in Installed PV Modules**

Presenter: Liviu Stoicescu, Solarzentrum Stuttgart

##### **Towards higher reliability of PV modules: role of polymeric materials**

Presenter: Antonia Omazic, OFI Austrian Research Institute for Chemistry and Technology

##### **Descriptive statistics on the climate related performance and reliability issues from global PV installations**

Presenter: Christoph Mayr, AIT

##### **Photovoltaic Life Time Forecast and Evaluation – Marie Skłodowska-Curie (MSCA) Project SOLAR-TRAIN**

Presenter: Ismail Kaaya, Fraunhofer ISE

##### **The H2020 project Solar Bankability: Technical risk management in PV investment**

Presenter: Giorgio Belluardo, EURAC Research

##### **Performance and Reliability of Photovoltaic Systems: Evaluations of Large-Scale Monitoring Data**

Presenter: David Moser, EURAC Research

**SolarSharco®, a novel low cost, transparent, durable self-cleaning coating designed for BIPV technology.**

Presenter: Héctor Zamora, ONYX SOLAR ENERGY

**EU Project: Next-generation interdigitated back-contacted silicon hetero-junction solar cells and modules by design and process innovations (NextBase)**

Presenter: Kaining Ding, Forschungszentrum Jülich

**High Efficiency Matters – The DISC Project**

Presenter: Marko Topič, University of Ljubljana

**UV-F for Outdoor Inspection**

Presenter: Christoph Mayr, AIT

**The 3SUN 2.0 Hetero-Junction technology program, an approach to increase quality and sustainability of PV systems**

Presenter: Fabrizio Bizzarri, Enel Green Power

---

**AGENDA AT A GLANCE**

The one-day conference will start at 9:00 and will finish at 17:15. All participants are invited to stay for a networking cocktail at the end of the conference from 17:15 to 18:00.

**SESSION 1:** Quality in solar PV: what can we learn from other EU and Global Initiatives?

**SESSION 2:** Does quality have an impact on bankability?

**SESSION 3:** Ecodesign, Ecolabeling and Green Procurement Policies – enabling more Sustainable Photovoltaics?

**SESSION 4:** Quality and reliability: experience from the field

**SESSION 5:** R&D&I Panel discussion – How to address quality in practice?

Download the full [CONFERENCE PROGRAMME](#) here.

**REGISTER [HERE](#) UNTIL 25 APRIL!**
